## ASBESTOS INSPECTION and ABATEMENT CERTIFICATION

I \_\_\_\_\_ certify that the construction project located at  
(Building Owner or Agent)

\_\_\_\_\_  
(Building Address, Including Floor and Suite Number)

has been inspected for asbestos containing material and complies with the Code of Virginia, S36.99.7 and the Virginia Uniform Statewide Building Code, Section 108.10, "Asbestos Survey Standards for Buildings to be Renovated or Demolished", as promulgated by the Virginia General Services Department, "Clean Air Act" (NESHAP) and OSHA, "Standards for Construction Workers" and found that;

### For General Construction:

- \_\_\_\_\_ 1. The building or area being renovated has been tested by a licensed asbestos inspector and no asbestos containing materials regulated by the above codes or standards was found.
- \_\_\_\_\_ 2. The building or area being renovated has been tested by a licensed asbestos inspector and is found to have asbestos containing material. The asbestos containing material will be removed or encapsulated as required by the above codes and standards, and final clearance levels indicated compliance will be obtained before the area is reoccupied.
- \_\_\_\_\_ 3. The combined amount of regulated asbestos containing material is less than the 260 linear feet on pipes, 160 square feet on other facility components, or less than 35 cubic yards when removed from the facility components.
- \_\_\_\_\_ 4. The area being renovated or demolished is a single-family dwelling or a residential housing unit with four or less units. These units will not be used for commercial or public use.
- \_\_\_\_\_ 5. The building being renovated was initially constructed after January 1, 1985 and is not subject to these regulations.

### For Roofing, Flooring, or Siding Only:

- \_\_\_\_\_ 1. It is assumed, or testing has indicated, that there is asbestos containing material in the area being renovated. It will be removed or encapsulated by a licensed asbestos contractor or a licensed asbestos roofing, flooring, siding (RSF) contractor.
- \_\_\_\_\_ 2. I certify that sampling of the material to be renovated was accomplished by a RFS inspector and analysis of the sample showed no asbestos to be present.
